For they all come back
Then let us try please you.

JUST OPPOSITE THE COSMOPOLITAN HOTEL

Remarkable Cure of Dysentery
"I was attacked with dysentery
about July 15th, and used the doctor's
medicine and other remedies with no
relief, only getting worse all the
time. I was unable to do anything
and my weight dropped from 145 to

125 pounds. I suffered for about
two months when I was advised to
use Chamberlain's Colic, Cholera and
Diarrhoea Remedy. I used two bot-
tles of it and it gave me permanent
relief," writes B. W. Hill of Snow
Hill, N. C. For sale by all dealers.

City Fathers Meet

The regular meeting of the
Blairmore council was held on
Monday night, all the council-
ors being present.

Several communications were
read and ordered filed, but no
accounts came up for consid-
eration.

One of the most important of
the communications was one
from the Union of Alberta Mu-
nicipalities, requesting that the
Town of Blairmore be repre-
sented at a convention to be
held on August the 25th, 26th
and 27th at High River. Mayor
Lyon and Councilor Sinclair
were delegated to represent the
town at said convention.

A list of non-property holders
compiled by the secretary-
treasurer was presented to the
council. It was contended by
some of the council that the
system of poll tax should be
brought in force, as a large
number of non-property hold-
ers in this town were looking
to the town for their livelihood
and not contributing one iota
towards municipal improve-
ments or the education of chil-
dren. Others expressed an
opinion that the poll tax would
infect a burden upon the wage-
earner and would ultimately be
responsible for barring many
desires from becoming resi-
dents of our promising town.
After considerable discussion it
was decided to submit the mat-
ter for consideration at the
High River convention.

The subject of automobile
livery licenses came up for
another thrashing, and Mr. Doubt,
the proprietor of the Alberta
Livery, was there to plead his
just cause. This matter came
up for discussion about two
months ago, but no definite
steps have since been taken to
relieve the situation. Anyway,
it is apparent that the automo-
bile livery under the present
system of licensing and regula-
tion is not a source of direct
revenue to the town and is sim-
ply an undefeatable competitor
for the regular livery and feed
stables who pay the town an
annuity for the privilege of
earning a livelihood within the
town limits. It was recom-
mended also that an appeal in
behalf of this grievance be made
before the convention at High
River.

Sinclair-Drain - That the
chairman of the license and
police committee be authorized
to arrange a pound and see that
cows and all other cattle
(men and women excepted) are
properly looked after. Carried

Oriental Re- placing Indians

From present indications, Orien-
tals will, to a great extent, re-
place the Indian in the Chilliwack
and Agassiz box fields this season,
and already 250 Chinamen have been
engaged to work on the Horst
ranch at Agassiz, which comprises
600 acres. The Orientals, rapidly
driving the Indian from the fish-
ing grounds, are now invading
their other fields of labor, and con-
sequently the latter are now forced
to work on the railroad. -B. C.
Federationist.

Death of Samuel Shone

Samuel Shone, formerly super-
intendent with the West Canadian
Culivies, Ltd., but later residing
at Vancouver, B. C., died in the
hospital at Vancouver on Tuesday
Aug. 19th. Deceased leaves a wife
and several children.

The remains were brought to
Coleman, where interment took
place on Saturday.

Another Victim

Of The Ring

John W. Young, better known as
"Bull" Young in fighting circles,
died at the hospital at Los Angeles
on Friday night as a result of a
kick-out blow from Joe Willard,
and following an operation for
cerebral hemorrhage.

Young was formerly a sparring
partner for the late Luther McCar-
ty, who died from a knockout
delivered at Calgary by Arthur
Pekey.

Harvest Pros- pects Excellent

When asked about the effect of a
successful harvesting of this year's
crop in Alberta John I. McFarland
of the Alberta-Pacific Grain company
said that if the crop was harvested
under the conditions that now prevail,
it would improve financial conditions
by about 100 per cent. And the
prospects were for getting the crop
in the elevators in excellent shape.
"To our firm it means a lot and we
are using every effort to assist in
getting the crop off in good shape,"
said he.

On the whole, I do not think
Alberta has had a better crop," con-
tinued Mr. McFarland. "The straw
is short to most cases, but the heads
are good, and that is what the coun-
try wants. Heavy straw and small
heads look good in the field from the
main road, but short straw saves
much pitching and if the heads are
getting the strength from the soil,
in-and of it going to straw, it means
money for the farmer.

In fact," said Mr. McFarland,
"when we speak of 'good crops' I do
not think they have ever been better,
and did not think we have ever had a
year when we have heard so little
of frost at this time of the year. The
average yield may not be as great in
bushels as it has been in some years,
but the quality is so good that we
can consider it up to or above the
average, and for this reason the
farmer will reap a greater benefit.
The average crop of a high grade is
much better than a large crop of
lower grade."

When the fact was mentioned that
a report had been received to the
effect that Alberta had the best pros-
pects of the three provinces, Mr.
McFarland smiled and said that if
the present weather continued, Alber-
ta would have no complaint to make,
and conditions would be such as to
please the most pessimistic.

To Investigate Mining

Nelson, August 25 - Hon. Louis
Coderre, minister of mines in the
Borden cabinet, who was here on
Saturday with a limited number of
the International Geological Con-
gress, indicated that, when he
returns to Ottawa next month, a
royal commission will be appointed
to enquire into the needs of the
mining industry, particularly with
reference to lead and zinc mines.

Mrs. Knowlton and daughter,
of Lethbridge, are visiting Mr. and
Miss Simpson at Frank.

Capitalists Arrive

A party of capitalists from
Minnesota arrived in Blairmore
on Sunday and in company
with Messrs. J. H. Farmer,
George B. Jackson and H. E.
Lyon left by auto to look over
their vast coal properties at
the North Fork.

The party included Messrs.
M. H. Alworth, M. W. Alworth,
R. D. Alworth, J. S. Washburn
and E. K. Hawkins, of Duluth,
and Capt. Webb, of Hibbing.

Previous to going out to the
Fork, the party toured through
the mining camps of the eastern
slope of The Pass, and were
keenly interested in the extent
of development.

It is not known yet what
their plans are in connection
with their properties at the
North Fork, but it is known
that their properties contain
coal of the highest quality and
illimitable quantity.

Three Schools Of Agriculture

Opening to students this fall, the
three schools of agriculture which
have been erected on the provin-
cial demonstration farms, at Olds,
Clareholm and Verrill, repre-
sent a new departure in agricul-
tural education in Canada. The
schools follow closely on the lines
of agricultural schools in Denmark
and Germany; the domestic sci-
ence of the schools' work approxi-
mating very nearly to the German
schools for the special training of
girls for farm life. In the opinion
of President H. M. Tory, of the
University of Alberta, who has
just returned from an investigation
trip in Europe, "these schools are
setting the pace for the effective
distribution of agricultural educa-
tion in this country."

H. Dexter MacKay left Frank
on Friday for Gleichen, where he
takes charge of the public school.

TREE PLANTING ON PRAIRIES

What one Teacher Accomplished—Centre for Neighborhood Improvement

A certain teacher in a rural district in Saskatchewan has planted 900 young trees at his school this spring. The teacher is Mr. J. H. Smith, and his school is in the town of Regina. The trees are of various kinds, including poplar, aspen, and birch.

As a result of his work the people of the district—mostly Germans—are applying to the Indian Head nurseries for over 50,000 trees for the spring of 1914.

The importance of tree planting on the wind-swept prairies of the Canadian west is obvious to anyone who will give the matter a moment's reflection. Why is it not more of it done? We often hear it said that the farmers have not the time. But in any district where an enthusiastic tree planter is active, the good work stimulates interest by a concrete illustration of what can be accomplished.

If every teacher in the west would undertake this year's example, a change could be wrought in the appearance of the Canadian prairies and the general content of western life. That, in a very few years, would amount to nothing short of a revolution.

Stomach trouble is the scourge of the west. It is the cause of much suffering and is the cause of much suffering. It is the cause of much suffering and is the cause of much suffering.

It is the cause of much suffering and is the cause of much suffering. It is the cause of much suffering and is the cause of much suffering.

It is the cause of much suffering and is the cause of much suffering. It is the cause of much suffering and is the cause of much suffering.

It is the cause of much suffering and is the cause of much suffering. It is the cause of much suffering and is the cause of much suffering.

It is the cause of much suffering and is the cause of much suffering. It is the cause of much suffering and is the cause of much suffering.

It is the cause of much suffering and is the cause of much suffering. It is the cause of much suffering and is the cause of much suffering.

It is the cause of much suffering and is the cause of much suffering. It is the cause of much suffering and is the cause of much suffering.

It is the cause of much suffering and is the cause of much suffering. It is the cause of much suffering and is the cause of much suffering.

It is the cause of much suffering and is the cause of much suffering. It is the cause of much suffering and is the cause of much suffering.

It is the cause of much suffering and is the cause of much suffering. It is the cause of much suffering and is the cause of much suffering.

It is the cause of much suffering and is the cause of much suffering. It is the cause of much suffering and is the cause of much suffering.

It is the cause of much suffering and is the cause of much suffering. It is the cause of much suffering and is the cause of much suffering.

It is the cause of much suffering and is the cause of much suffering. It is the cause of much suffering and is the cause of much suffering.

LOVE IS ECCENTRIC

Often It Seems to Uphold the Old Theory that Opposite Attract

Men like all kinds of women. There are men who adore beautiful women, but there are also men who adore plain women. There are men who like women who are quiet and demure, but there are also men who like women who are bold and daring.

There are men who like women who are rich and powerful, but there are also men who like women who are poor and humble. There are men who like women who are young and beautiful, but there are also men who like women who are old and wise.

There are men who like women who are kind and gentle, but there are also men who like women who are stern and strong. There are men who like women who are sweet and soft, but there are also men who like women who are bitter and hard.

There are men who like women who are brave and courageous, but there are also men who like women who are timid and shy. There are men who like women who are free and independent, but there are also men who like women who are dependent and submissive.

There are men who like women who are honest and straightforward, but there are also men who like women who are dishonest and deceitful. There are men who like women who are true and loyal, but there are also men who like women who are false and unfaithful.

There are men who like women who are pure and virtuous, but there are also men who like women who are impure and vicious. There are men who like women who are good and noble, but there are also men who like women who are bad and mean.

There are men who like women who are kind and gentle, but there are also men who like women who are stern and strong. There are men who like women who are sweet and soft, but there are also men who like women who are bitter and hard.

PRESERVED AND SPENDED

NONE SO EASY

Quaint Marx Laws

Many quaint and curious customs dating from ancient times are still observed in the life of Marx, and the most interesting of these is the ceremony that will be enacted today on Twelfth Hill. Men, women and children from all over the little island of the Irish Sea will gather on this hillside and listen to the official Marx laws.

For centuries the archaic legal ceremony has been carried out on each fifth of July, except when that date falls on a Sunday, and it still retains most of the novel features that make it the most interesting observance of its kind to be witnessed anywhere in the world.

It is no longer possible to read all the laws that govern Marxmen, since the House of Keys, as the local legislature is called, is busy in adding new statutes as circumstances demand.

It is a law that is no longer observed, but which retains a place in the statute book, provides a penalty of 500 any one who shall be found guilty of libelling the law-makers. The death penalty was once the punishment for the crime of libel, but it was abolished in 1837.

How Insects Breathe

All insects need air, even those that live in water, but no insect has nostrils, as any opening in the head through which it breathes. Instead there is a row of small openings called spiracles, down each side of the body, one on each segment beginning with the second or third segment of the thorax and extending back to the tip of the abdomen.

The spiracles open into two air-tubes that extend the length of the insect. One on each side, just within the wall of the body. These tubes are connected in the thorax by two cross-tubes, and from them smaller tubes, or veins, branch out to the tips of the antennae and the joints of the feet. The tubes are known as tracheae, and serve the same purpose that the lungs serve in the vertebrates; to carry oxygen to the blood and tissues. The outer openings or spiracles are protected in various ways—as for example, by a circle of hairs—in order to prevent the admission of anything except air.

If the insect is resting, the air enters the tracheae through the spiracles, and is carried to the tips of the antennae and the joints of the feet. The tubes are known as tracheae, and serve the same purpose that the lungs serve in the vertebrates; to carry oxygen to the blood and tissues. The outer openings or spiracles are protected in various ways—as for example, by a circle of hairs—in order to prevent the admission of anything except air.

WILSON'S FLIP-PADS

early in the season, and thus cut off large proportion of the summer crop.

The Belgian Congo Cannibals

From Ruw to Malange is perhaps eight hundred miles as the crow flies, but being pedestrians went to the cannibals were carrying on extremely active warfare in the country traversed by the direct and, for infantry, had to make a long detour that added at least two hundred miles to our trip.

That was in July, 1907, and we had reached the most westerly of the Katanga mines at Kivu with the intention of proceeding directly west to Angola. The southwest corner of the Congo was, at that time, a veritable hot-bed of cannibalism and slavery. The territory was then in the hands of the Portuguese, but the cannibals did not eat the Portuguese.

They would not have permitted for many years, and the chances of improvement seemed extremely small. A few months later, however, the Portuguese, an immense rubber trading concern under the leadership of a Belgian, had taken over the territory. The cannibals were effectively put down. Only here and there a few remained.

Seventy miles north of Lukosa we found a stump, quite evidently a sort of sacrificial altar, as it was decorated with human skulls, mostly those of white men. It was a relic of the slave trade of all the tribes of this section. It was very largely for the slaves of the cannibals that the Portuguese had taken over the territory. The cannibals were effectively put down. Only here and there a few remained.

Seventy miles north of Lukosa we found a stump, quite evidently a sort of sacrificial altar, as it was decorated with human skulls, mostly those of white men. It was a relic of the slave trade of all the tribes of this section. It was very largely for the slaves of the cannibals that the Portuguese had taken over the territory. The cannibals were effectively put down. Only here and there a few remained.

Correspondence

The Editor of The Enterprise—
 Sir—You have been as kind as to permit me space in your valuable paper on one occasion before and the subject matter referred to in the article being of such a propitious nature that the council of our town had to side-track the cause by passing certain resolutions to head around the bush. However, the matter will come up again, as it is not as dead as recidity.

With your kind permission I would like you to publish the following, and perhaps the board of trade will take more interest in this than the council did in the last article.

We have heard a lot of talking in reference to wild-catting in buying real estate. The writer is in favor of all and any effort that will be put forth for the purpose of protecting the innocent or ignorant purchaser. We are also reminded of rumors of wild-catting, not only in real estate transactions, but many other pursuits for the get-rich-quick smart guy!

Your readers no doubt have been personally canvassed by people who are promoting companies for the purpose of developing some great discovery. The writer has nothing to say against the legitimate promoter, but wishes to tell the readers of this home and abroad paper to be just as careful when investing money in stock of a company which is being lured by some agent, or promoter as they would be in buying real estate; and in fact we will venture to state that from facts that have come to our notice of late, we ourselves would be very dubious in buying stock in the so-called companies. If anyone will the writer that the people of our town are loath to invest their money in some local industry, an interest that can be seen develop by the naked eye, such as an investment in our local brewery. This investment the writer claims as a safe investment, providing the capital can be raised.

It is surprising to us that strangers can come into this district and promote a company for a larger paid-up capital than is required to put our local brewery on a working and paying basis. In no state of conditions like this to be regretted!

Citizens of the district of the southern portion of the Rocky Mountain wilderness, raise up and boost your local industries! Bring new ones in and let the outside world look after itself, unless they wish to invest in this district. Then get out as one and boost! Get your companies incorporated, then sell your stock. Have something to show for what you receive the money for. Do not try and deceive the public, even if Mark Twain, the great writer, said that "the public were the easiest to be fooled."

The old timers of this district may be checked in buying stock in a local concern, if the time of being canvassed they have a vision of the certain companies which in the writer's opinion were never incorporated, although money was taken and receipts issued, which we suppose were to be redeemed when the stock certificates showed up. But, alas! What if the stock certificates never showed up for over a year after the receipt was given, or a shorter time, and which turned out after a few months or years to be worthless, as the supposed company was never incorporated at all, and the poor sucker either lost what he had invested or took stock in some concern that perhaps would pay 2 cents on the dollar invested or none at all. These things, if the writer incorrectly informed, are certainly enough to make a person stop and seriously consider before investing his hard-earned money, which perhaps he has saved by 50 cents each day for years and years.

Citizens, it is not a shame to see an industry like the Blaimore Brewery and Malt Company by its title and its factory stand as a monument in the prime of its life in Blaimore? We consider it the duty of every citizen to help this concern and any other legitimate industry that comes to our town to locate. Do not believe in knocking, but in order to boost our town, develop, revive and duty bound to help our own industries first and the others from the outside look after themselves. Buy at home. Invest at home. Live at home. Have your children grow up and make their future home in the same busy center.

Our taxes are easy in comparison with other towns, so why should we not have plenty of new industries and in two years have 5,000 of a population, instead of two thousand.

Now, citizens, once you establish a good paying industry, you will have no trouble to induce the outside to enter. Why should BLAIRMORE, THE HUB OF THE DISTRICT, not have the following industries:

1. Book and door factory.
2. Foundry.
3. Two more line kilns.
4. More concrete plants.
5. A manufacturing brewery.
6. A tin and wood company.
7. Clay and pottery industry.
8. And numerous other industries!

Readers, one reason is that our money men do not like it, they will not take a chance.

Now let us tie up, pull together, knock out all our doubts, fakers and

A Beginning

Our contemporary, "The Blaimore Enterprise," reports the formation in that town of a society to be known as the "Blaimore Society for the study of Canadian Poetry." The object of this society will be to meet monthly for the study of Canadian poems and literature.

This announcement is perhaps the most gratifying that we have seen for some time. The people of Blaimore are wise, and we should be pleased to see other towns, including our own, starting out on a similar venture.

The study of literature among us westerners is not only our pleasurable duty, but it is a necessity. Comparatively, we find ourselves away from men and things, our situation is remote and as a result we are in danger of becoming too insular. Reading, and pleasurable discussion on books is one way in which we can gain acquaintance with our own age and past.

"I love to lose myself in other men's minds," says the immortal Charles Lamb in his "Thoughts on Books," and that is the spirit which we, who are so far out of the reach of the settled world ought to cultivate. Life to be a success depends on more than the mere accumulation of wealth, and we are a little too apt to pay too much attention to the pocket at the expense of our mental enrichment. Wealth for its own sake is not all that we have to live for; there is something else in life beyond "the almighty dollar," that great object of universal devotion, and if we are to enjoy all that is around us, we must occasionally turn to some other subject. There are other riches than those handed by the lender, riches which are a free gift to all of us, if we will only lift our heads a little above the level. We stand in need of perception, the key which will open the way to the beauty of all time, the "open sesame" which will admit us to the treasures that are not material. —Vulcan Advocate.

A Man! A Man! Help! Help!

Late last night a certain part of the town of Blaimore was set in a furor over the discovery of a man under the bed in quarters occupied by two young ladies. The occupants were out visiting and during their absence some "naughty" individual trimmed up a dead-head with the pants and boots of a man, which was placed under the bed, just the boots being exposed to view. The ladies entered the house and then the bed room, where they purloined regarding themselves in the habit for which they are famous, when on turning on the light their eyes beheld the horrible spectacle. Both rushed outside and screamed for help, the police was called, who with others planned how to make a successful capture. Guardians were placed at each window. "Boo! Drain stood by the back door with a lasso, while the chief, armed with all his uniform of authority and munitions of war, boldly entered the bedroom. The same exposed boots were pounced upon and legs chained, then with the assistance of several excited friends, a quick pull was made while the police stood ready with the handcuffs. But, alas! No legs, no body, no nothing but the pants and boots! People in the community had no sleep last night and are still cracking their sides over the greatest joke that has yet been accomplished locally. Teaching was resumed this morning.

Pincher Creek has approved of a business tax by-law.

The concrete foundation is just completed for a fine residence being built by Victor Welton near Eighth Avenue south, Blaimore.

The Imperator, the largest vessel afloat, was gutted by fire at New York yesterday. The second officer and one of the crew lost their lives. The ship carried a crew of 1,800 men, and had on board 1,131 passengers, all of whom escaped.

get-rich-quick artists, and boost for our lively burg, the career of THE GREAT SOUTHERN MANUFACTURING DISTRICT.

Yours, etc., same
 OBSERVING RATEPAYER.

French Capital

For the West
 Vancouver, Aug. 23.—Mr. Philippe Roy, Canadian Commissioner-General to France, after touring the Prairie Provinces, reached here today from Edmonton via Fort George and the Cariboo Road. After visiting Vancouver Island, he will inspect the Okanagan Valley before returning East.

Mr. Roy believes in getting first-class information in order to be in a position to advise French investors respecting the various provinces. Only a few years ago he went inland from Prince Rupert as far as Hazelton. He knows East Kootenay thoroughly, as he was a physician on construction during the building of the Crows' Nest Pass line.

The visitor stated that to the rail-head on the G.T.P., and the boat trip down the Fraser, as well as the long motor car drive to Ashcroft, had given him a new impression of the magnitude and variety of the natural resources of British Columbia. Mr. J. W. Stewart placed a special beat at his disposal for the run down the South Fork of the Fraser to Fort George.

"There exists abroad an erroneous impression that the farming area of British Columbia is limited. I am now in a position to dispel that illusion after traversing a magnificent area of fertile lands and hundreds of smiling ranches," said the visitor.

"The Northern Interior is a veritable empire with a great future. It has room for a vast population. French people have invested large sums in Canada during recent years, and British Columbia has been one of the most favored fields. There have, as was inevitable, been a few propositions that did not come up to expectations, but the investors seem to be well satisfied, and look for an increasing flow of capital to Western Canada. French capital is available for meritorious propositions in bonds, as well as mining and industrial enterprises."

Suggest Church Courting

Lake Wawasee, Ind., Aug. 25.—The Rev. W. T. Phillips, Ph. D., of Reading, Pa., in a lecture before the Young People's Alliance of the Evangelical Association, in convention at Oakwood Park said: When I met a woman with a puddle dog on first thought I have contempt, but then I pity her, for I appreciate the fact that she has very little money matter at the apex of her spiritual column."

The Rev. Christian Starcher of Cleveland, speaking of what the church can do for young people, said he believed the church purloined ought to use more than they are, and suggested that even courting in the church would not be a bad thing if done under proper supervision. The Rev. George Pullman discussed "Missionary Persecution."

NOTICE

Good Remedy for the Kidneys
When a man has suffered for several days with colic, diarrhoea or other form of bowel complaint and is then cured and well by one of our doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy, as

is often the case, it is but natural that he should be enthusiastic in his praise of the remedy, and especially in the case of severe attack when life is threatened. Try it when in need of such a remedy. It never fails. Sold by all dealers.

Local and General

The Alberta House will convene on September 16th.

"Joe" Harrington is slightly under the weather.

Wilson MacDonald went west to Fernie on Monday.

Bassano is calling for tenders for the construction of a \$35,000 post office.

D. A. Sinclair has received several building contracts during the past week.

Messrs. George Clair and H. G. Goodlove were down from Coleman on Monday.

Rev. W. H. Moncaster, B. D., attended Presbytery at Pincher Creek this week.

The salary of Fernie's police magistrate has been raised to \$202 per month.

School re-opened on Monday with over two hundred pupils in attendance.

D. A. Sinclair is erecting a dwelling house on State Street for Mrs. May, of Hillecrest.

The 41 Market Co. have at last treated themselves with a brand new delivery wagon.

Miss M. E. Moir returned Sunday night from an extended holiday at the Pacific Coast.

A small audience turned out for J. McPhail Wagg's lecture on "Mark Twain" Friday night.

The plant of the Pincher Creek Echo is advertised to be sold by auction on Saturday of this week.

J. W. Verge returned from Edmonton on Friday to resume his duties as principal of the Blairmore public school.

Tom E—"Hello, Vic, have you tried the Blairmore beer yet?"

Vic—"Gosh, no! I've cut it out!"

Mayor Lyon went to High River on Tuesday to attend the convention of the Union of Alberta Municipalities.

The Pinkney residence moved up from Frank last month, has been reconstructed on the West Canadian townsite.

The Blairmore Coal Lands, Limited has been incorporated with a capital of \$500,000. Head office in Blairmore.

R. M. Brisco and party went to Pincher Creek on Tuesday, where they proposed spending a couple of days duck shooting.

Dan Lewis claims that nothing is not always a smooth proposition. Some may come out of the venture without a scratch.

Try our Pincher Creek Creamery Butter, the best on the market, at 35c per pound.—F. M. Thompson Co.

J. L. Workman, vice-president of the Excelsior Development Corporation, Ltd., came up from Macleod on a brief visit Saturday.

Anglican service will be held in the Oddfellows' Hall, Blairmore, every Sunday evening at 7.30. Rev. A. C. Tate, incumbent.

Alex. Boyd and Wm. Thompson arrived from Westville, Nova Scotia, last week end. Mr. Boyd is a brother of James Boyd, of Blairmore.

The stork visited the residences of Fred Denison, on State Street, and George Shedd, on Twelfth Avenue, during the week, leaving two bouncing heirs.

A party of 8-hermen, in charge of General Dawson, returned from the North Fork Monday morning, having been several days disturbing the funny tribe which have lately made Alberta south famous. For a time on their journey home they had about "two spokes in the wheel," but there was no necessity of the R.N.W.M.P. interfering.

Miss Berry, formerly of the Frank teaching staff, but now on the staff of the Medicine Hat school, returned to the flat on Friday after spending an enjoyable holiday with friends in The Pass.

Some improvements are to be made to the front of the Nicofor block on Victoria Street, which we understand will be converted into a meat market.

M. Menard, brother of J. Menard, of the West Canadian Collieries, arrived from Paris, France, last week on a brief visit. Mr. Menard is a lawyer by profession.

W. E. Cooper, our local tailor, purposes moving into spacious quarters on Victoria Street, where he will be in a better position to handle his ever-increasing trade.

Rev. R. A. Barron, of Chicago, occupied the pulpit at the Presbyterian church both morning and evening of Sunday last, and his discourses were much appreciated.

Classes in English are being held every Tuesday and Thursday night in the old school house on State Street, where the foreigners may obtain instructions for a very nominal tuition.

A grand dance will be given at the Rocky Mountain Sanatorium on Monday night next. Over four hundred invitations have been sent out and with an excellent orchestra most enjoyable time is assured.

George A. Clair, proprietor of the Grand Union hotel at Coleman, left on Wednesday by auto for a few days duck shooting on the prairie. A couple of local gunners accompanied him.

The "O.O.O." held their annual field day at Coleman on Monday next, Labor Day. A good programme has been arranged and a good day will be spent, by all who make it a point of attraction.

Joe Faliol and a couple of his friends returned Tuesday evening from a duck hunt down at the Midge lakes, where they bagged 26 fine ducks, and are well pleased from the result of their outing.

The wife of John Rushton, of P. Burns, Coleman, passed away on Wednesday of last week. Deceased was only twenty-two years of age and leaves a husband and three children to mourn her loss.

For Saturday the F. M. Thompson Co. will have Washington Plums at 50c per basket, Washington Peaches at \$1.35 per case, Bananas 40c per dozen, apples \$2.25 per case—The Quality Store.

On and after Monday September 1st, L. H. Putnam's law offices will be located in the "Enterprise" building temporarily until his commodious quarters in the new Enterprise block are in readiness.

Somebody has circulated a rumor to the effect that the rear end of the basement of the Blairmore brewery was being acquired by the Methodist church. The Methodist shouldn't be under such an influence!

Excursion C. 1, of the International Geological Congress were entertained by the city of Calgary last week. The party of excursionists numbered 86, being representative of some twenty nationalities.

The induction of Rev. Willis Wright into the Presbyterian charge at Pincher Creek took place on Wednesday night, the Revs. Cameron, Bryn, and Moncaster officiating. Mr. Wright is a native of Elkhorn, Man.

Geo. Bradley and Harry Matheson were down from Sentinel during the week. They report harvesting in full swing in the vicinity of Crow's Nest Lake, and that the turkeys and lettuce on the Ostville ranch are in full bloom.

"Mac" and "Gene" paid a visit to Beattie's Camp Sunday evening where they found their old friend "Denny" and after several shots (?) having been exchanged, all settled down to old reminiscences of bygone days, which was being interspersed by song and music of most modern form from an up-to-date gramophone. After a pleasant social time at the camp retraced their steps homeward, remarking to themselves, "Nothing like a starry night for a ramble," and feeling much better for the outing.

The building on Victoria Street occupied by L. E. Miller has been moved west to an adjoining lot to give place to the "Enterprise" building. Excavation and foundation work is now well under way and it is expected the building will be completed by October 15th.

The handsome residence built by the West Canadian Collieries for manager Menard has been completed, and is now being occupied. The building is without exception the most artistic, and conveniently appointed residence in The Pass, and its location adds materially to the value of the property.

Brisco and party who left town Tuesday afternoon for a day's duck shooting in the vicinity of Pincher Creek, were obliged to return to town owing to a breakdown of their "bug wagon." They will complete their mission as soon as the repairs are effected.

The executive council of Alberta has ordered that "No Indian is to be permitted to enter any pool room, billiard room or bowling alley in the Province of Alberta. Any proprietor of such pool room or bowling alley permitting infringement of this regulation will be subject to the cancellation of his license."

Jonathan Graham, a well known miner of Coleman, died at the Coleman hospital on Thursday last, following an operation for appendicitis. Graham was well known at Coleman as well as through the rest of the Pass. He was but in his 36th year, and was connected with the U. M. W. of A. Recently he operated a poolroom at the Grand Union hotel.

A special attraction will be put on at the opera house on Wednesday night next, when Jack Taylor, heavyweight wrestling champion of Canada, undertakes to throw any six local men and to give the sum of \$25 to any man staying off his back for 15 minutes. With Jack Taylor are two ladies, his wife Rita and Miss Lorraine, the only two ladies following the wrestling profession in Canada. They will put on an exhibition. See ad elsewhere in this issue.

Among the guests at the Cosmopolitan this week were T. Martin, Fernie; C. J. Simpson, Seattle; W. Moon, O. M. Woods, New Mexico; P. T. Collins, A. Johnston, J. S. Adamson, N. A. Barker, N. H. White, H. A. B. Bland, J. C. Delaney, A. R. Stratton, George Spry, F. L. McEwen, H. M. Reid, G. Morreco, W. R. K. G. A. Volney, Calgary; C. McLean, V. E. Green, J. V. Cork and wife, J. E. Terry, Lethbridge; C. H. Leste, Detroit, Mich.; James Smith, Lundbreck; J. R. Johnston, Medicine Hat; M. Bloom, F. Harrison, Winnipeg; E. H. and Miss Price, Chicago; A. M. Morrison, Coleman; J. Stewart, Zealands; A. Rublee, Vancouver; A. Mascoti, San Francisco.

Marshall - MacLean Bout

The Cranbrook Prospector has the following to say of the Marshall-MacLean bout held in that city last week: "The boxing contest held in the Auditorium on Tuesday evening, was witnessed by a large audience, who went away fully satisfied that the bout was the best exhibition of the manly art ever held in Cranbrook. Dick Marshall of Fernie got the decision over J. McLean of Bull River in the eighth round. The main event was a fifteen round contest between Dick Marshall of Fernie and J. McLean of Bull River. Marshall was in the heavy-weight class, while McLean was in the middle-weight; the difference of some 12 pounds was a great advantage to the older and more experienced fighter. After a hard and strenuous fight during which the blood flowed freely from Marshall's nose, received from a hard blow in the second round, Marshall was given the decision when MacLean was down for the count of the fatal ten. Before the beginning of the bout it was announced that a telegram had been received from Joe Uvanne, challenging the winner of this fight."

Bellevue Happenings

Watts Goodwin was laid up for a few days last week.

Mrs. Albert Hallworth is laid up with a severe illness.

Miss Margaret Burrows has returned to the camp from Granum.

A new Mason & Ritchie piano has arrived for use in the Lyric theatre.

A Medicine Hat firm has started up a temporary photo studio in the camp.

William Gallimore was laid up with an attack of grippe the first of the week.

Mrs. Samuel Shone and family are visiting here, the guests of Mrs. Robert Evans.

A snail was held by the haulage crew in the workers' hall on Saturday night.

A stoppage of the fan caused a temporary cessation of Labor at No. 1 mine on Friday.

Mr. Moore arrived from Toronto on Saturday to assist Dr. MacKenzie in his local practice.

Walter Scott and his brother from Monarch went on a fishing trip to the North Fork this week.

The stork visited the home of Mr. and Mrs. J. Jackson recently, and left a bouncing daughter.

Mrs. G. W. Goodwin is still progressing favorably from the effects of her recent operation.

Mrs. S. T. Humble arrived home on Monday morning after a three months' visit to the Old Country.

The Bellevue football team will visit Coal Creek on Saturday to play off the finals for the Mutt cup.

Miller's trained animal show entertained good crowds at the Lyric theatre on Thursday and Friday last.

Mack LeLievre Consens underwent an operation for tonsillitis and adenoids in the local hospital last Thursday.

The Bellevue band rendered another one of their popular concerts on Sunday night, which was much appreciated.

A government road gang are busy repairing the road between here and Maple Leaf. It is a welcome improvement.

Miss Frank Booley underwent a severe operation in the hospital on Saturday last. She is progressing as well as can be expected.

If you want a wife write "E.G.S." Am good-looking, aged 22, height 5 feet, weight 202 pounds.

The news of the passing away of "Sam" Shone, our late superintendent, brought consternation to many in the camp last week. A goodly number of his old pals journeyed to Coleman on Saturday to pay their respects to the departed. Keen sympathy is expressed on every hand for Mrs. Shone and the children, as well as his many friends and relatives here who mourn his loss.
